

My decade worth of experience working in Local TV has perfectly positioned me to impact your station positively. I am an award-winning Sports Anchor/Reporter & Producer. I anchor and produce our Saturday night college football show, and serve as an anchor and lead producer/editor for all our sports specials at WIS. During my time with WIS, I have also covered significant news events and anchored both morning and evening newscasts.

My expertise and creativity allow my work to help my current station stand out above the competition in our state. I believe in the importance of telling stories engagingly, to best inform, enlighten, and entertain the viewing audience.
